

**Marking and
Feedback Policy
March 2013**

“an ongoing process conducted both formally and informally, by which information and evidence about a child’s learning is absorbed and used to plan the next step”
(Ruth Sutton, Assessment a framework for teachers 1991)

Introduction

At Gorse Hill Primary School we want all children to make good or better progress and develop positive attitudes to their learning. ‘Assessment for Learning’ is central to children recognising and achieving their potential.

Assessment for Learning is concerned with both the learner and the teacher being aware of where learners are in their learning, where they need to go and how to get there.

The following policy outlines the key issues that ensure the teachers and the children at Gorse Hill Primary School achieve high standards and have ownership over the learning and teaching that takes place within the school.

Aims

The intention is for Assessment for Learning (AfL) to occur in everyday lessons. AfL improves learning and raises standards. The way teachers mark and give feedback to pupils is central to the process.

The key characteristics of Assessment for Learning

- 1. Explicit Learning Objectives.**
- 2. Success Criteria.**
- 3. Questioning.**
- 4. Feedback.**
- 5. Marking**
- 6. Adjusting teaching to take account of results.**

1. Explicit Learning Objectives (WALT)

Effective learning takes place when learners understand what they are trying to achieve and why it is important – ‘the bigger picture’. Children need to know how what they are learning today, links to what they learnt yesterday and what they will learn in the future. It is therefore important that pupils know the learning objective to the lesson as this gives a focus, enabling pupils to review their own progress and to see if they have achieved the objective. Teacher demonstration and modelling will closely relate to the learning objective as will the subsequent activities. Together these will support and guide children to achieve the lesson intention.

The learning objectives will focus on learning not activities. When learning objectives are shared with children, they will be removed from the context so as not to confuse children. Helpful learning objective stems include ‘to know, to be able to’.

2. Success Criteria (WILF)

Developing success criteria to achieve the learning objective will help provide children with a framework against which they can focus their efforts, evaluate their progress and discuss issues. Success criteria can be generated by the teacher, but it

has been recognised that where children together generate their own success criteria to meet a learning objective they gain more ownership over the learning with positive results. We recognise that on occasions there is no need for more than 1 or 2 success criteria and to be most effective, a limit of no more than 5. Feedback against the criteria frees children from personal discouragement.

3. Questioning

We use questioning in a variety of ways. Our key purpose is to develop learning and extend thinking. Asking questions raises issues; from this the teacher builds up knowledge and information about the children's understanding and misconceptions. Time needs to be invested in framing key questions to use during the demonstration and modelling part of the lesson to ensure learning progresses. Key questions, including ***prompting, promoting and probing*** questions, are recorded in teacher's medium or short term planning. **Wait or 'thinking' time is essential** to give all children the opportunity to think and respond.

This enables more children to contribute to discussion and misconceptions can be dealt with more effectively. The use of **'talk partners'** where children can rehearse and scaffold their answers will lead to greater responses from the children and therefore provide much more information for the teacher about the extent to which children have understood the new learning. We encourage a 'no-hands up' policy therefore ensuring expectation of all learners.

Timely, 'hinge questions' will be used to assess children's understanding at key points in a lesson, thus determining the direction learning takes.

4. Feedback

The purpose of AfL is to provide feedback in such a way that learning will improve as a result. Teachers need to identify the next steps to learning as well as responding appropriately to the mistakes that they make. Teacher's feedback will provide pupils with the information they need to achieve the next step and make better progress. Feedback will always be constructive and sensitive because any assessment has an emotional impact. Feedback that comments on the work, rather than the child, are more constructive for both learning and motivation. The following are a number of ways feedback can be given:

Verbal

- Most regular and interactive form of feedback.
- Focus on being constructive and informative to help pupils take the next steps in their learning
- Can be direct (targeted at pupils/individuals) or indirect (whole class can listen and reflect on what is said)
- Whole class or group marking of one piece of work can be useful as the teacher invites children's contributions so that the piece is marked through a process of discussion, analysis and modelling
- Opportunity to model the language pupils can use when responding or giving feedback to others
- Developmental feedback- recognise pupils' efforts and achievements and offer specific details of way forward.

- Emphasise the learner's progress and achievement rather than failure.

Self-assessment

We will encourage pupils where possible to self-assess their work. This can be by recording traffic lights in their books, placing work in a choice of baskets, use of learning ladders, or through thumbs up.

Peer assessment

Children can mark their own work against success criteria and on occasions can be involved in shared marking. This is not meant to replace teacher marking and feedback but is important for encouraging children to become more independent and responsible for their own learning. Time needs to be built into the lesson for this to be possible and allow children to reflect in structured ways as follows:

- Find one word you are really proud of and underline it. Tell the person next to you.
- Decide with your 'talk partner' which of the success criteria you have been most successful with and which one needs help or could be taken further.
- You have 3 minutes to identify two places where you think you have done this well and read them to your partner.
- You have 5 minutes to note down one thing you could do to improve this piece of work next time.

5. Marking

We aim to ensure that all children have their work marked in such a way that it will lead to improved learning, develop self-confidence, raise self-esteem and provide opportunities for assessment –including self-assessment. Marking will encourage learners to be aware of how and what they are learning. The emphasis in marking will be on a child's achievement and what the next steps need to be in order for the child to further improve. These improvements will link to targets set for individuals, groups or the whole class. Marking will encourage the learners to be equally aware of 'how' and 'what' they are learning. We acknowledge that there are areas of children's learning which have a generic expectation such as spelling, grammar and punctuation. For this reason, we have a consistent marking code to be applied in conjunction with this policy. (Please refer to appendix)

Key principles and guidance for marking:

- Ensure that the Presentation of work policy is followed and that professional judgement is applied dependent on the age of the child.
- Marking is only of value if comments are read and responded to.
- All work marked by a member of staff should be in **green**.
- Work marked by someone other than the class teacher should be initialled e.g. TA – teaching assistant, ST – supply teacher.
- Work marked by the children should be in a red. Pupils should be encouraged and trained to mark their own and other's work where they highlight success and improvement.
- In depth marking will be completed at least 2x a week in maths and in literacy. Marking must be manageable and not all pieces can be quality marked. Regular and frequent written feedback will be given to children in an

appropriate way for their age and ability. Any work that is distance marked should be written in child friendly language. Comments should model the handwriting policy.

- All marking will be positive, informative and constructive and comments must relate to the LO (WALT) and the SC (WILF) . Only give feedback on what children were asked to pay attention to.
- Maths and other closed tasks should be marked with a tick and a 'x' put next to incorrect answers. Children should be encouraged to leave incorrect answers and not rub them out. Corrections and or 'close the gap tasks' should then be completed under the piece of work.
- Any calculations, sentences etc. that need to be corrected should be indicated in Next Steps comment where appropriate.
- Marking in literacy should include ✓✓ where the child has written best aspects against LO and in Next steps indicate an area where some improvement needs to be made. Information needs to be given as to how the child can close the gap.

Useful 'close the gap' are:

1. **Reminders - What else could you say here?**
 2. **Scaffolds – What was the dog's tail doing? The dog was angry so he.....!
Describe the expression on the dog's face.**
 3. **Examples – Choose one of these – He ran around in circles looking for the rabbit/The dog couldn't believe his eyes.**
 4. **Modelling.**
- Spelling corrections should be limited to the words the child should know and a maximum of 3 spelling mistakes will be underlined and written correctly in the margin. The child will then write the word 3 times when responding to marking.
 - Punctuation marks relevant to the child's National Curriculum levels will be marked. Punctuation mistakes will be circled where wrong or omitted.
 - Time must be given to pupils to correct, redraft, edit, add and respond. Corrections and responses should be completed below the last piece of work by the child using red.
 - Children should evaluate their work using the traffic light system or ladder of success.
 - Marking will inform teachers' judgements on how a child is progressing in relation to the whole class, National Curriculum levels of attainment and the child's individual ability and will be used to inform teachers' records and reports to parents.

The whole purpose being, that where possible, marking does the following;

A. Highlights success - use of ✓✓ throughout the work where the pupil has achieved positively against the success criteria with 2 star comments being given at the end of the piece of work.

B. Provides a 'closing the gap' prompt (and a wish) to help children make improvements.

These can occur in different ways e.g.

- a reminder prompt
- a scaffold prompt
- an example prompt

6. Adjusting teaching to take account of results

Pupil feedback and marking will be used to inform future planning. Annotations on plans will be used to record assessments made.

7. Response to marking

All pupils are to be taught to respond to marking using red pen or pencil (dependent on age) and initial. Marking is to be responded to as soon as possible after the learning takes place whilst it is fresh in children's minds.

Key Stage 1 MARK MEANING

	You have understood this work.
	You are beginning to understand this work.
	You need help. Come and ask!
	Really like
	Check spelling
O	Check punctuation
I	I worked independently
T/TA	Help has been given by a Teacher or Teaching Assistant.
V	My teacher spoke to me about my work
?	Something doesn't make sense. You need to read your work carefully and check it for mistakes
Red ink	Child feedback/follow up.
Green Ink	Marked by an adult.

KS2 Marking Codes

// New Paragraph

V Verbal Feedback

T Teacher Support

TA Teaching Assistant Support

✓ ✓ Really Like

 Spelling or Grammar Error

^ Omission

O Incorrect or Missing Punctuation

? Doesn't Make Sense

Green ink indicates adult feedback

Red ink indicates child feedback/follow up.
